ACTIVITIES OF INSURANCE BUREAU DIVISIONS

OFFICE OF POLICY AND COMPLIANCE

This office performs a variety of functions within the Insurance Bureau. The Hearings Division conducts administrative hearings on topics ranging from alleged violations of the Insurance Code by licensees, to rate filing reviews, to resolving disputes between consumers and insurers. Actuarial services such as analysis of selected rate filings and review of insurers' reserves are provided to other divisions within the Insurance Bureau by the Actuarial Analysis Division. This division also develops and maintains computerized information systems to monitor competition in the markets for home, auto and workers' compensation insurance.

The Regulatory Standards Division provides research capability to the Commissioner of Insurance. Staff in this division analyze current problems encountered by the Insurance Bureau in its regulatory role and develop recommendations for dealing with these problems. The division also analyzes proposed legislation and participates in implementing new statutes. In carrying out these functions, the Regulatory Standards Division develops rules, bulletins and guidelines which convey the Insurance Commissioner's policy positions and interpretations of the Insurance Code.

Taken as a whole, these components of the Office of Policy and Compliance work together to articulate a regulatory policy to be applied to the business of insurance, and join with other areas of the Insurance Bureau to enforce regulatory policy.

OFFICE OF CONSUMER PROTECTION

The Office of Consumer Protection and Enforcement has as its primary mission protecting insurance consumers in Michigan and assisting them with problems and questions that they have relating to the insurance relationship in the State of Michigan. The Office of Consumer Protection and Enforcement (OCP) staff work to assure that Michigan insurance consumers get what they bargain for in the insurance relationship — that the coverage for which they pay is placed in force, and that all benefits deriving to those consumers from insurance contracts are, in fact, paid.

OCP is responsible for enforcement actions against licensees of all types pursuant to the requirements of the Insurance Code generally. The great bulk of Bureau administrative prosecutions are executed by OCP staff in the Consumer Protection Compliance Division.

Consumer Assistance Division (CAD)

This division helps consumers who have experienced problems with their insurance or who have questions regarding insurance. CAD is often able to mediate disputes between the consumer and company to the advantage of the consumer. In 1984, CAD received 587 written inquiries, 6,337 written complaints, held 292 "walk-in" personal conferences, and responded to 20,913 telephone inquiries.

In addition to administration of the Bureau's complaint review process, CAD has responsibility to conduct informal hearings required under the Essential Insurance Act. In 1984, CAD held 40 such informal reviews of consumers' grievances.

Market Conduct and Investigation Division (MCAID)

During 1984 several modifications in procedures associated with the investigation process were instituted which resulted in significant statistical results for the performance of the division during the year. A total of 333 cases were closed by the MCAID during calendar year 1984.

Although this unit retains responsibility for market conduct audits of insurers and other persons in the business of insurance, staffing resources and internal priorities precluded the MCAID staff from initiating any formal marketing practice audits during calendar year 1984.

At year-end 1984, MCAID investigators were working on an active basis 53 cases, and another 88 referrals/complaints were being held in MCAID for evaluation for assignment to case status.

Consumer Protection Compliance Division (CPCD)

This unit is primarily responsible for the prosecution of administrative and compliance cases and their resolution.

During 1984, 1,999 compliance cases were opened by CPCD staff. 543 cases were closed and only 11 cases initiated by OCP staff were closed by a Commissioner's order during the year, and a large number of the open cases were pending near conclusion of the end of the year. 28 licensees had their license authority completely revoked and an additional 8 license suspensions were ordered in 1984. Fines and compliance fees in the amount of $185,650 were assessed during 1984.

OFFICE OF HEALTH INSURANCE

The Office of Health Insurance administers regulatory programs pertaining to prepaid health care and dental care service corporations, and health maintenance organizations. Unlike any other office in the Insurance Bureau, this office is structured along programmatic lines rather than along functional lines and its responsibilities encompass all aspects of regulation. The various functions performed in this office include licensing, financial standards and surveillance, market standards and practices, consumer assistance and complaint investigations, rate approval and monitoring, subscriber and provider contract approval, and policy and program development.

This office is divided into two areas of responsibility — the Blue Cross and Blue Shield of Michigan (BCBSM) and Delta Dental Plan (DDP) Division and the Health Maintenance Organization (HMO) Division. The above-mentioned functions are carried out by each division in its area of responsibility.

BCBSM and DDP Division

BCBSM provides coverage for medical and hospital care to almost five million persons, over half of the state's population. It has contracts with every hospital and provides payments to the majority of physicians in the state. It also administers the federal Medicare program in Michigan.

The first major legislative reform of BCBSM since its inception in 1939, 1980 P.A. 350, was scheduled to take effect April 3, 1981. The implementation of this Act was blocked by an Ingham County Circuit Court injunction issued on April 2, 1981 prohibiting P.A. 350 from going into effect. On April 16, 1985 the Michigan Supreme Court substantially upheld P.A. 350, and the law will be in full effect by the summer of 1985. The Act restructures the Board of Directors of BCBSM to increase consumer representation. It also embodies a significant reduction in direct authority of the Insurance Commissioner over corporate reserves, rates of reimbursement to hospitals, and subscriber rates. It does, however, provide an imaginative regulatory approach toward solving the pressing problem of health care cost increases. Health care cost increases and accompanying health service utilization increases continue to be a major concern to the Office of Health Insurance. This led to a 5 percent rate increase for area rated group coverage which became effective on July 1, 1984. Also, on June 18, 1984 BCBSM requested a 68 percent increase for individual coverages, but the Commissioner granted only a 10 percent increase, effective November 1, 1984.

In addition, major benefit program changes occurred during this year. The most important changes were the addition of coverage for human organ transplants and the implementation of a precertification program of hospital admissions called for all elective admissions except maternity. This program is expected to significantly reduce inpatient costs in the coming year.

BCBSM's unassigned reserves continued to grow in 1984, to $358,789,579 indicating strong financial health. The company wrote $3,271,720,655 in premiums and incurred $3,077,491,817 in losses.

Delta Dental Plan finished its 26th year of operation by providing over $153 million dental benefits to its group subscribers. Total assets increased almost $6,000,000 to $73,275,699. The corporation showed continued growth and a strong financial position, with unassigned reserves of $24,840,045.

HMO Division

Health Maintenance Organizations (HMOs) continue to progress as an alternative to traditional "fee-for-service" arrangements. HMOs have been very effective in controlling hospital utilization and providing a more efficient means of delivering health care. Statistics show that HMOs have been able to reduce hospitalization by over 20 percent from 530 days per 1,000 members in 1981 to 420 days per 1,000 members in 1984. During 1984, enrollment in HMOs increased by over 39 percent from approximately 539,000 to 750,000 members. While this is a very healthy growth for the industry, only about 8 percent of Michigan's population is enrolled in HMOs. With the increased promotional efforts of business, labor, and government, and with the increasing number of HMOs, it is expected that this percentage will increase significantly in the future. Two new HMOs were licensed in 1984, and one additional new application was in the licensure process as of the end of the year. Relicensure applications of two HMOs were also processed and approved during the year. In addition, several of the existing HMOs expanded their service area into new communities, thus making the HMO option available to more people.

Alternative Health Care Financing and Delivery Systems (AFIDS) are entities which share many of the characteristics of HMOs but do not meet all the statutory requirements for HMOs. An entity can be licensed as an AFIDS under Section 21042 of the HMO Act if it meets certain requirements and the Insurance Bureau and Department of Public Health determine that the system will benefit the public. To qualify for licensure, an entity must offer health care benefits, and must be organized so that both the entity and the providers are at risk for the cost of services. This program permits otherwise unregulated entities to offer beneficial and cost-efficient health care arrangements that do not fit within the traditional regulatory schemes. In most cases, entities licensed as AFIDS offer prepaid, limited line capitation programs such as prepaid dental or vision services. In 1984, two AFIDS were licensed, and two other applications were in the licensure process at the end of the year. The growth of AFIDS will have a very positive impact on health care utilization and cost control efforts in Michigan.

OFFICE OF INDUSTRY STANDARDS

This office administers regulations to assure that insurance companies can meet their contractual responsibility to policyholders when claims are submitted. In regulating for solvency, company financial records are audited, examined, and analyzed.

Financial Standards Division

This division's primary responsibility is conducting financial examinations on-site of insurers licensed in the State of Michigan so as to assure continued company solvency and compliance with the statutes, thereby protecting the insurance buying public. In addition, the division is responsible for the annual valuation of reserves of domestic life insurers and lien life insurers using Michigan as a port of entry state.

In 1984, the Bureau's staff of 15 examiners participated in 17 examinations; 12 of the companies were domiciled in Michigan, and 8 examinations were conducted under the auspices of the National Association of Insurance Commissioners with the participation of examiners from other states. The division also examined 5 companies that used Michigan as its port of entry state.

Financial Analysis Division

Every insurer licensed to transact insurance in the State of Michigan is required by statute to file a detailed financial statement covering the preceding calendar year on or before March 1 of each year. This division is responsible for analyzing approximately 1,450 detailed annual financial statements each year, as well as less detailed quarterly statements from many of those companies. Also audited are statements filed by unlicensed companies under the surplus lines provisions of the Michigan insurance laws. Analyses are performed in order to determine financial solvency and to ensure compliance with various statutory requirements.

The Financial Analysis Division is also responsible for administration of the Premium Finance Act. As of December 31, 1984, there were 34 premium finance companies licensed in Michigan.

Market Standards Division

This division assures that rates for insurance policies marketed in Michigan are not excessive, inadequate, or unfairly discriminatory, and that benefits are reasonable in relation to the premium charged. Insurance contracts are examined for required clauses and to make sure they are not ambiguous or misleading.

There is a trend in the insurance business to provide easy to read policy forms. This phenomena has increased the filing activity to replace obsolete insurance contracts with the more readable counterparts.

The availability of medical malpractice, liquor liability and municipal liability insurance is becoming an increasing problem. These lines and others that are hard to place are generating an increasing number of calls from individuals and businesses seeking insurance coverage. This division attempts to match the potential policyholder with an appropriate market when possible.

During 1984, the division acted on 7,767 property and liability rate and form submissions. In addition, 21,835 individual policy forms were approved or disapproved.

In 1984, the division received 8,784 life and health policy form or rate filings and 3,130 advertising pieces or marketing plans.
